Annual Report

CASCO

1917-1918

Allen County Public Library

ANNUAL REPORT
OF THE
Municipal Officers
OF THE
TOWN OF CASCO
FOR THE
Year Ending February 15
1918

1918
Advertiser Print
Norway, Maine

Art. 30. To see if the town will vote to build a toilet room to schoolhouse in district No. 9 and raise money for the same.

Art. 31. To see if the town will vote to repair the Songo Bridge, so called, or jointly with the state, county and town of Naples build a new one and in either case raise money for the same.

Art. 32. To see if the town will vote to re-establish all schools which have failed to maintain the lawful average.

Art. 33. To see if the town will vote to instruct its treasurer to make and execute deeds in behalf of the town.

Art. 34. To transact any other business that may properly come before the meeting.

The selectmen will be in session at the Town House on the morning of the eleventh day of March, A. D. 1918 at nine o'clock for the purpose of hearing and deciding upon the application of persons claiming the right to vote in said meeting.

Given under our hands at Casco, the fifteenth day of February, A. D. 1918.

G. B. MAYBERRY,
M. S. HANCOCK,
W. M. CHUTE,

Selectmen of Casco.

Report of the Selectmen

The annual reports of the town officers of Casco for the municipal year ending February 15, 1918, are herewith most respectfully submitted.

George W. Dingley, board and care.....	34 00	
		<u>\$139 05</u>

John A. Chute:

Order drawn

Howard Watkins.....	\$11 00
---------------------	---------

Immediately following the application of Mr. Chute for assistance, investigation to ascertain what rights if any he had, in the homestead property, developed the fact that he had none whatever, having conveyed by warranty deed the entire estate to Mary P. Whitney. Several conferences with Mrs. Etta Chute and Mrs. Whitney resulted in the sale of the property to Mr. Willard M. Chute for \$1,000.00 with an agreement that Mrs. Chute's part, \$500.00, should be paid to the town, this having been done, we take this opportunity to thank Mrs. Chute in behalf of the citizens of Casco for her generosity.

OUT OF TOWN POOR

Orders drawn:

Town of New Gloucester, supplies and medical attendance to Clarence Edwards and family, to Fred Edwards and family, and to Silas Edwards	\$181 80

F. E. TENNEY, Commissioner.

School Report

To the Superintending School Committee and the Citizens of Casco,
I submit my third annual report of your schools:

TEACHERS

We have, at present, some very good teachers in our teaching force. Some of them we are able to retain because they prefer to teach in their home town. At South Casco, an experienced, trained teacher was secured because part of the parents pay four dollars per week toward her salary. This is the kind of spirit which we wish to see. The pupils are reaping the benefit, for the South Casco school is one of the very best in our union.

TEACHERS' SALARIES

It will be impossible to hire teachers for next year at the wages which we are now paying. We must either raise more money or consolidate our schools. Wages are increasing in all lines of work, and we cannot expect a teacher to work for eight or nine dollars per week for a school year of thirty-three weeks when she can get so much more in other lines of work and have employment for the whole year.

BOOKS AND SUPPLIES

We have continued to replace the old arithmetics and grammars with the new series of books. We have also started to replace the old Harper's Geographies with the new Brigham and McFarlane's Geographies. These are a great improvement over the old books.

ATTENDANCE

Parents, will you kindly give the teachers your hearty co-operation in securing better and more punctual attendance?

NEW BUILDING

The new building on Mayberry Hill is one of which the people may well be proud. It has proper heating, lighting, and ventilating. The teacher reports that there has not been a day this winter when the building has not been warm.

The citizens of that district put in the foundation and paid for the portico over the front door. They are also to grade the yard. The total amount of their labor and money furnished is \$299.91, which is much more than they pledged themselves to give. They have laid a foundation which can never settle as they dug down to hard pan and filled in with rocks, placing the cement foundation on that.

I wish that every citizen of Casco would visit this building and inspect it. It is a standard toward which we should look when repairing other buildings.

REPAIRS

I recommend only such repairs as are necessary in order to make the school buildings comfortable and sanitary for the coming year. First, every school stove should be jacketed. The parents of the Casco Village pupils learned how well the jacketed stove on Mayberry Hill worked and decided to jacket their school stove at their own expense. This was done during the Christmas vacation. The result has been a warm, even temperature throughout the entire room. The expense of jacketing the remaining six stoves would not be great.

The sheds and out buildings at Webb's Mills, Cook's Mills and South Casco are in poor condition and should be replaced by new ones. When this is done, I recommend that sheds like the new one on Mayberry Hill be built.

The outbuildings at the high school also need to be replaced at once.

THRIFT STAMPS

The Thrift Stamps offer an excellent opportunity to invest small as well as large savings at a good rate of interest. They are well named, for they are not only a good investment, but also teach our boys and girls to save their money. This habit, when well established, will be of great value to them. I feel sure that parents will grasp this opportunity to teach both patriotism and thrift, and that our schools will do their part in this great work.

Every pupil in the Quaker Ridge school has purchased one or more Thrift Stamps. This entitles them to a certificate from the Government which will be framed and hung in the school room. Every school in town should secure such a certificate before the close of the spring term.

JUNIOR RED CROSS

Another grand opportunity for the children to aid Our Country is through the Junior Red Cross. Every school in the land is cordially invited to join in this great work. Even the little ones may help by cutting cloth for comfort pillows. Of course the lessons must be learned before this work is given pupils, so this is an incentive to them to improve their time.

Three of our schools have already signified their intentions to organize Junior Auxiliaries.

HIGH SCHOOL

I wish to call your attention to Principal William E. Doe's report which you will find in another part of this report. I heartily approve the recommendations which he has made and ask that you give them your most careful consideration.

The good name of our school is spreading, and pupils are coming to us more and more from other towns. At present, we have eight tuition pupils. This gives us a total of \$96.00 per term, and I see no reason why this amount should not increase.

Our teachers have worked hard to give the pupils every chance for growth, which is the object of all true education. I feel sure that the majority of the parents unite with me in thanking them for the good work which they have done.

At least three things are necessary for a truly successful school: good teachers, interested pupils, and citizens who give their hearty co-operation. Of these three, the last is most important. No matter how efficient the teaching force may be, no school can do its best work if the citizens criticize and find fault with the teachers before the

pupils. Find out exact conditions before you pass judgments and then take matters to your school officials rather than to the general public. If you will pursue this course, you will help more than in any other way to establish a good name for your high school.

CONCLUSION

I wish to thank the committee, the citizens, and the teachers, who have so kindly aided me in my work.

Respectfully submitted,

CHARLES E. VARNEY, Superintendent of Schools.

Report of the Principal of the High School

To the Superintendent of Schools and School Committee:

It is my duty and pleasure to submit to you my annual report of Caseo High School.

School opened September 11, 1917, with a total registration of 40. Seven of this number have left school to work or to attend other schools, while one has been added to our list, making our present number 34. The enrollment by classes is as follows: Freshmen, 9; Sophomores, 14; Juniors, 2; Seniors, 9. Of these, nine are studying Latin, 16 French, 34 English, 14 History, 27 Mathematics, and 28 Science.

Physical training has been offered to both boys and girls in the form of indoor Basket Ball during the winter months, and a large percentage of the students has taken advantage of this exercise. During the spring term out door sports will be offered, and some form of physical exercise will be required of the boys.

Our library is gradually increasing through the efforts of the High School Association and friends. This association has taken advantage of the State Circulating Library in obtaining a collection of helpful books for use during the school year.

Our laboratory is a pleasant room, and is gradually being made more efficient. A good collection of chemicals has been secured. Our Physics apparatus, however, is limited too much to obtain the best results in that course; and I suggest an appropriation of \$75 to secure necessary apparatus and materials for the Science Department for the coming year.

I wish to call your attention at this time to the very poor condition of our out-buildings. They are very unhygienic, and therefore, dangerous to the best health of the children. I trust you will give this matter your attention as soon as possible.

In closing, I wish to thank the Superintendent for his continual and untiring assistance, the School Committee for their uniform support, and the parents and other citizens of the town for their help and encouragement at all times.

Respectfully submitted,

WILLIAM E. DOE, Principal.
